

Region 3 GPRA Baseline RCRA Corrective Action Facility

Kane Magnetic International (Formerly:Stackpole)

**700 Elk Avenue
Kane, PA 16735
Congressional District 5
EPA ID #: PAD043817444
Last Updated 12/11/2002**

Current Progress at the Site

This Facility is one of EPA Region III's high priority RCRA corrective action sites.

In August 1999, EPA performed an Environmental Indicators on-site visitation and made a determination that no further action corrective action was necessary during the time of the visitation.

EPA will issue a RCRA corrective action Statement of Basis (SB) that will explain the proposed no further action and provide public an opportunity to review and comment on this proposal.

Site Description

The Kane Magnetic International (Kane) facility manufactures magnets and magnetic assemblies for automotive systems, appliances, medical, power generations and office products. Prior to 1992, the Facility manufactured lead-barium based magnets.

Some residential homes are adjacent to the Facility. Kane representatives stated that there are no private wells within a half-mile of the Facility. Commercial establishments are nearby the Facility.

Site Responsibility

RCRA Corrective Action activities at the Facility are being conducted under the direction of EPA Region 3 with assistance from the State.

Contaminants

There are no human or environmental threats at the Facility.

Community Interaction

EPA will publish a public notice in local newspaper that will describe the proposed no further action for the Facility. EPA will provide a 45-day comment period to welcome public review and input.
